Columnist and writer of articles about dance and hip hop dance (Streetdancemag, Sudtiroler Kultur Institute, ecc.), specifically about formation, dance pedagogy and didactics.

I create concepts from the plot to the stage, with all about castings, artists, costumes, scenography and lighting. After several years of experience, i can provide and direct a complete team and net of dancers, technical specialists, stylists and artist.

I offer stages and workshops of Hip Hop dance (New Style), well known for my didactics and style: a personal confluence and core of studies and experiences where hip hop dance and most of all groove are the top elements. My vision is to create choreographies where control, breakdowns and the old school techniques meet the groove and the flow .

I live for Hip Hop, for Dance and Art at 360°

If you are interested in something we can live and create together, please feel free to contact me.
